Moderated by Latvia's UN Youth delegate Ms. Natālija Knipše

Latvian UN Youth Delegation in cooperation with the Permanent Mission of Latvia to the UN is proud to host an interactive discussion on youth perspectives on the work, priorities and the future of the International Law Commission (ILC). Despite being one of the important pillars of the United Nations and international law and order itself, rarely can this abbreviation be found in the vocabulary of youth. Even more rare is it that the youth can weigh in on issues surrounding the working agenda of this body, although young people have a strong interest in many topics related to international law.

We invite you to join an interactive discussion with international law experts who are candidates to the ILC at the elections in November 2021, and UN youth delegates. Topics for discussion will range from the role and importance of the ILC in our daily lives to what are the most relevant issues for youth on ILC's agenda, and how this international body should look in the future.

The ILC is the body of experts responsible for the progressive development of international law and its codification. The work of the ILC has led to the adoption of many international treaties and other important documents.

We kindly invite you to register for the event [here](#).
